

Give your Child Dr. King's New Discovery for Coughs and Colds.

Dr. King's New Discovery is a Doctor's Prescription used for over 45 years. It is pleasant and children like it.

You cannot use anything better for your child's cough and cold than Dr. King's New Discovery. It is prepared from Pine Tar mixed with healing and soothing balsams. It does not contain anything harmful and is slightly laxative, just enough to expel the poisons from the system. Dr. King's New Discovery is antiseptic—kills the cold germs—raises the phlegm—loosens the cough and soothes the irritation.

"I have used Dr. King's New Discovery for the past three years and use it continually in my family. My children are very fond of it for it keeps them free from cold. I can't say too much for it, and take pleasure in recommending it to my friends." Mrs. A. S. Himes, Franconia, N.H.

Don't put off treatment. Coughs and colds often lead to chronic cough, pneumonia and other serious lung troubles. It is also good for adults and the aged. Get a bottle to-day. All druggists.

Society to Meet.

The Ladies Aid Society of Ash chapel Methodist Episcopal church, Broad Oaks, will meet at 2 o'clock Thursday afternoon in the home of Mrs. M. D. Garrison. All members are urged to attend.

Remember Miss Davison.

Among the many pleasing mementos received by Miss Belle Davison, of West Main street, on Wednesday, her birthday, which placed her on the list of monogamians, was a beautiful selection of flowers contributed by a few of her "old boy" scholars as a token of her residence, now occupied by Dr. and is still held by them. At least one of these scholars attended her school as far back as 1859 and another in 1862, when she taught in the little frame building on Second street, in the rear of her residence, now occupied by Dr. Peck as an office. In this building she taught many pupils, some of whom have long been grandparents. Those who contributed the flowers sincerely trust that her life may be many years prolonged of manifesting, on each of her future birthdays, their deep gratitude to her for the beneficial instruction she has imparted to them in their boyhood, now far back in the distant past.

Baptist Circle to Meet.

The Woman's Mission Circle of the First Baptist church will meet at 2 o'clock Thursday afternoon in the church. The Tone of the New Edison

Music lovers have hoped for years that some day a genius would make possible an artificial tone that would actually sound like the original. This Mr. Edison has done, at last in the New Edison Diamond Disc Phonograph. With the wonderful Diamond Stylus (no needles to change) he has created a tone so true, so life-like, that one can scarcely distinguish it from the original.

A Revelation:

This seems almost too good to be true. Come in and hear it. Judge for yourself. We will be glad to play the New Edison for you without obligation. It will be a revelation to you as it has been to others.

UTAH MORMONS GIVEN EXPOSURE

LOOKING FOR WORK

Everywhere men complain about work; even boys and girls in school or business find work tedious and irksome, but it isn't the work half so much as their own lack of physical strength that makes it hard.

Rich blood, strong lungs and healthy digestion make work pleasurable in business, in school or even housework, and if those who are easily tired—who are not sick, but weak and nervous—would just take Scott's Emulsion for one month and let its pure concentrated food create richer blood to pulsate through every artery and vein—let it build a structure of healthy tissue and give you vigorous strength—you would find work easy and would look for more. Insist on Scott's.

OF INTEREST TO WOMEN

For the Single Flower.
The single-flower vases that made their appearance not so very long ago are made in an increasing number of styles. They come in glass, in cut glass and pressed glass patterns, and they also come in silver. A tiny silver one cost \$2. One of these little holders is especially useful in winter, when flowers are scarce, for with the air of one of them a single rose becomes decidedly decorative.

A Pomade for the Scalp.
A pomade for the scalp is recommended for use in the autumn is made of strained beef marrow and olive oil.

The marrow is obtained from beef bones and put into a small saucepan to melt. It should then be strained and oil added. Twenty robs of benzoin stirred in will preserve the mixture. The quantities required are a gill of olive oil.

In order that it may be applied without making the hair temporarily impossible to dress, the hair should be parted in a great many places and a tiny bit of the pomade rubbed into the scalp on the tips of the fingers.

Apostle Russell Tears the Mask from Them in a Court House Sermon.

(Communicated.)

For some years the followers of Brigham Young, known as the Utah mormons, have been scouring this state for converts to their faith, making headquarters at Fairmont and claiming to the public that they were the true successors of the founder of the Latter Day Saint church—Joseph Smith—but in the court house last night their mask was pulled off by Apostle Russell, who has for weeks been telling the citizens of this city, through pulpit and press, that the Utah mormons were imposters, palming themselves off on a credulous public as Latter Day Saints, when in reality they are not entitled to the name, for the United States government will not grant them a charter.

Mr. Russell having announced his subject for last evening as a scriptural discourse on "The Book of Mormon," the crowd was excellent, and at the conclusion of the contents of the question box a man arose in the rear of the building and asked the privilege of saying a few words, to which Mr. Russell anxiously consented, whereupon a real Utah mormon elder arose and took the platform.

He quite agreed with the scriptural proofs presented by Mr. Russell in defense of the claim that it is a divine record, but at once told the audience that the Reorganized Church of Latter Day Saints, was in no way connected with the Utah mormons. He made several statements, admitting their polygamous practices which he said had been discontinued after the manifesto in 1890, but claimed that since that date no polygamous marriages had been performed, but to his surprise and utter confounding at the close of his remarks, Mr. Russell produced an article written by Senator Frank Cannon in Everybody's for March, 1911, wherein he proved that the president of the Utah mormon church, Joseph Fielding Smith, had performed a polygamous marriage between Mr. Cannon's brother, Abraham, and a Miss Lillian Hamilton. To this the mormon could make no reply.

Mr. Russell then said to him: "You have certainly done me a great favor by coming here tonight and showing the public that we are not Utah mormons for that is what I have been telling the people for weeks, and now they can really see that there is." Mr. Russell then offered to debate the mormon, Mr. Lunday, asking that he affirm for at least ten nights that the Utah mormon church is in faith, organization, doctrine and practice in harmony and identical with the Church of the New Testament and a continuation of the former Latter Day Saint church. Mr. Lunday at first refused, but as he has some big guns at Fairmont, there may be something of interest take place at the court house this evening.

Many of the congregation told Mr. Russell it was the best thing that could have happened as they now saw the real difference between the two churches.

Every person should hear it tonight, as it promises to be very interesting.
